Labay Middle School has set certain standards for all volunteers to follow so that public school children will be protected while they are attending school. Therefore, everyone is asked to observe the following safeguards.

- ⇒ So that the school nurse or other authorized person can follow the required procedures where sickness or medications are concerned: **volunteers must avoid giving medications or medical treatment to a child.**
- ⇒ So that the student may be kept free of unusual pressures and the family's privacy of beliefs may be respected: **volunteers must avoid promoting any political candidates or parties.**
- ⇒ So that staff persons who are responsible for the overall care of the student can take necessary actions: **volunteers must seek the aid of school personnel in case of discipline problems.**
- ⇒ So that parents are not expected to return unauthorized expenditures: **volunteers must avoid lending money to students.**
- ⇒ So that one business does not have an unfair advantage over another: **volunteers must avoid promoting any specific business, commercial products, or brand names.**
- ⇒ So that all parents can feel that all information pertaining to their child is kept confidential: **volunteers are not permitted to view student files or records.**

I understand the need to maintain confidentiality regarding information I might gain about individuals as I volunteer at Labay Middle School. I also understand that I am not to discuss individual student progress or behavior with anyone other than the supervising teacher or staff. I understand that serving as a volunteer, working with children, could require a personal background information check. I give permission to the district to complete this procedure as necessary.
